Maintenance Contracts to Operation and Maintenance Support. Whale Enterprise offers its customers a variety of Service Support packages from Annual

QUALITY

Whale Enterprise cares about quality across all aspects of its business. Indeed it is a word that characterises the company. Whale complies to ISO 9001 : 2015 accredited by TUV, Europe and all Whale products fully comply with all relevant legislation and regulations. It also has the benefit from being supported by its UK parent company Whale Tankers the largest manufacturer of vacuum tankers and jetting equipment in Europe.

TRAINING

Central to Whale's success is not only the training of its staff but also the provision of structured training for its product. This meets the changing needs of today's Indian water and sewage infrastructures. The company is also respected for its on-site commissioning of all new products.

WHALE IN THE UK

“ Through continuous improvement the company remains committed to producing products engineered to meet specific customer needs with a strong commitment to on-going service support ”

Whale Tankers is a world leading British manufacturer of waste tankers and jetting equipment for both the municipality and private contractor market place. With nearly 50 years experience Whale produces one of the widest ranges of equipment for this industry, and its main objective to offer Reliability, Service, Value...for Life for products and services has not changed.

Continuous investment in product innovation, process development, and most importantly, people, has proved instrumental in the company's on-going success.

The ethos has been transferred to Whale Enterprise PVT where it not only manufactures tankers and jetting equipment, but uses its engineering and technical design skills, such as computational fluid dynamics, in the validation of new product innovation whilst also ensuring the continued development of its existing products, ensuring that operating performance is optimised whilst maintaining the highest safety standards.

Whale Enterprises PVT significantly benefits from the support provided by the 20 strong engineering department at Whale Tankers Ltd who operate the latest state of the art D CAD and CAM systems. The UK technical department also has dedicated sections that cover disciplines that include electronics, homologation and research & development.

Through continuous improvement the company remains committed to producing products engineered to meet specific customer needs with a strong commitment to on-going service support. Whale have developed a number of long term relationships with European suppliers of parts so are able to offer many of these from stock whilst also being able to offer a technical support assistance.
